

ZIPANGU LIMITED

Greeting

**"We would like to be the Bridge between the Southeast Asia and Japan."
This is our wish.**

As Asian people look like Japanese there is misunderstanding that Asian people and Japanese are easy to understand. In fact there is a big gap between them from the difference of languages, weather, religion, history, politics and so on. We really wish to serve for many people by getting rid of this gap through our business.

Zipangu Logo

The upper part of logo symbolizes the Golden Country, “Zipangu”.

The lower part of logo symbolizes “the Compass”.

Combining them we describe the desire to be “the Compass” to “the Zipangu that is the Utopia” for our customers.

Zipangu : In 15 centuries Italian called Japan Zipangu.

From the end of 15 centuries to 16 centuries European countries competed to get the “**Treasure**” such as the New Continent, Spices and Gold. That Age, “the Age of Great Voyages” has gone.

But it is indispensable for “the Venture Spirit” and “the Exact Compass” to enter into the Complicated Japanese Market.

To Modern Marco Polo

There is still “**Treasure**” in Japan.

Let's go to the “**Treasure Hunting**” with us !
